Item 7 Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis and Investment Strategies

TreeTop Wealth Management, LLC measures investors' goals, risk tolerance and time horizon through an interview process and questionnaire to determine investment strategies or a financial plan that, according to the Advisor's judgment, are best suited to fit the client's profile. Advice is individualized and tailored to meet the unique needs of each client. After TreeTop Wealth Management, LLC evaluates the client's financial needs, the Advisor will design investment and risk-management strategies to help the client achieve his or her financial goals.

If the Advisor provides specific investment strategies, this information may be based upon several concepts and determined by the type of investor. Investment strategies may include long-term and short-term purchases depending upon the individual needs of the client. The concept of asset allocation or spreading investments among several asset classes (domestic stocks, foreign stocks, bonds, foreign bonds, alternatives) is in the forefront of our strategies.

Asset allocation seeks to achieve the most efficient diversification of assets, to lessen risk while not sacrificing the effectiveness of the portfolio to yield the client's objectives. Since TreeTop Wealth Management LLC believes that risk reduction is a key element to long-term investment success, asset allocation principles are a key part of the firm's overall approach in preparing advice for clients.

Recommendations for purchases or selling of investments will be based on publicly available reports and analysis. In the case of mutual funds or Exchange Traded Funds, recommendations will be based on reports and analysis of performance and managers, and certain computerized and other models for asset allocation.

TreeTop Wealth Management, LLC utilizes many sources of public information including financial newspapers and magazines, research papers, corporate rating services, annual reports, prospectuses and company press releases.

TreeTop Wealth Management, LLC gives advice on mutual funds, exchange traded funds, corporate debt, certificates of deposit, United States government securities, municipal securities, options contracts and equity securities.

Integrity demands honesty and candor which must not be subordinated to personal gain or advantage. Allowance can be made for innocent error and legitimate differences of opinion, but integrity cannot co-exist with deceit or subordination of one's principles.

Objectivity requires intellectual honesty and impartiality. Regardless of the service rendered or the capacity in which a certificant functions, certificants should protect the integrity of their work, maintain objectivity and avoid subordination of their judgment.

Competence also includes the wisdom to recognize the limitations of that knowledge and when consultation with other professionals is appropriate or referral to other professionals necessary. Certificants make a continuing commitment to learning and professional improvement.

Principle 4 – Fairness: Be fair and reasonable in all professional relationships. Disclose conflicts of interest. Fairness requires impartiality, intellectual honesty and disclosure of material conflicts of interest. It involves a subordination of one's own feelings, prejudices and desires to achieve a proper balance of conflicting interests. Fairness is treating others in the same fashion that you would want to be treated.

Principle 5 – Confidentiality: Protect the confidentiality of all client information.

Confidentiality means ensuring that information is accessible only to those authorized to have access. A relationship of trust and confidence with the client can only be built upon the understanding that the client's information will remain confidential.

Principle 6 – Professionalism: Act in a manner that demonstrates exemplary professional conduct.

Professionalism requires behaving with dignity and courtesy to clients, fellow professionals, and others in business related activities. Certificants cooperate with fellow certificants to enhance and maintain the profession's public image and improve the quality of services.
